HAAG-STREIT INSTRUMENT TABLES

HSM 600

The ergonomic workplace

With its clear cut design the HSM 600 offers a subtle modern style that complements most examination rooms. Thanks to its intelligent design the table guarantees that all equipment can be neatly installed and all trailing cables are fully enclosed. The high quality of the material used promises exceptional stability and durability.

HSM 600 is not only one instrument table but a series of tables which provide perfect support for the individual requirements of each Haag-Streit instrument.

Ergonomic workstation

Customized for each Haag-Streit instrument, the HSM 600 ideally supports the examination workflow. The purpose-made table tops allow ergonomic posture for operator and patient. For instruments requiring a PC the tables provide sufficient space for comfortable working with both, the instrument and the PC.

ERGONOMIC WORKSTATION

Wheelchair accessibility

The patient friendly design of the HSM 600 ensures comfortable access for all patients - also for those sitting in a wheelchair. The asymmetrical design provides a handicapped accessible approach to the instrument.

WHEELCHAIR ACCESSIBILITY

Technical specifications

HSM 600

	HSM 600 for Slit Lamp small	HSM 600 for Slit Lamp large	HSM 600 for BX 900
