

Declaration of Conformity - BQ 900

We declare under our sole responsibility that the medical device **Slit Lamp BQ 900** and its accessories complies with all applicable provisions of Regulation 2017/745 (MDR). Compliance with the General Safety and Performance Requirements is achieved by application of international standards listed in the document "Applied Standards".

Intended Use

A slit lamp biomicroscope is intended for use in eye examination. It is used to aid in the diagnosis and documentation of diseases or trauma which affect the structural properties of the eye.
